Information submitted under the proof of beneficial use process indicates that while this subdivision is not fully occupied at this time, a complete system has been constructed to distribute water under this right to the subdivision. The applicant and proof engineer have stated that the quantity of water and uses described in the proof documents are the amounts required to satisfy final project development. No water under this certificate can be changed or moved to any other beneficial use outside of this subdivision until complete occupancy and water use as described in the proof documents has occurred.

This water right is based on shares of stock in the South Kamas Irrigation Company. In order to protect the underlying water right, the portion of water not being used by the subdivision should be used within the irrigation company.

This certificate will be valid as long as the shares of stock are maintained.
